- 1-3/4" Water Tank Cap Cover
- 1-3/4" Windshield Cap Cover

1. The first step for installation will be to thoroughly scrub the tops of each of the factory caps, the oil/water/washer fluid/brake fluid. Scrub them with alcohol to remove any surface contaminants then swipe the tops with the adhesive promoter provided.
2. You have been provided with 2" furry Velcro attachment cookies for each cap. Peel the release liner from the back of each cookie and firmly set them to the top of each factory cap.
3. The factory wind shield washer fluid cap will need to be trimmed slightly in order for the new cover to sit nice and centered. To do this, simply snip the finger tab as well as the attachment strap off the cap with a scissor.
4. Simply set them in place.
